Few words about the work:

Too impossible it, to refine the Man who objects to think,
He himself will never do anything to get himself refined, nor will
He allow others to help Him to get refined!

In a humble attempt a trial is made in this work to present
very serious matters in very simple language.

Just telling openly many truths, facts! That's all!
All are with relevant plain documents.

To make you think, make you think again, again
and again to make you think.....

That is the main object of this work!

*For those words or lines with this mark, more details are
given at the end of the work.

A humble request to the readers! Kindly don't judge or
enter into argument before reading the whole. Answers
may be following!

THINK, THINK, THINK; AGAIN AND AGAIN THINK...!

Isn't God, a power!
Having ability
To hear and think
Of our prayers!

4

Then, isn't it a figment
Man's really a creature,
Having life and
To hear, ears?

8

If there is life, then there is
An end to it too, that's
The ever changeless
Truth of the universe!

12

Never it's by a
Single power,
The everyday governance
Of this universe!

16

The resultant result
Of the interaction
Of powers numerous
And numerous!

20

Codification of the
Special Theory of Relativity,
It's one of the Macro Scientist
***Einstein's** creations!

24

This maxim changed,
Prevailing concept of Time,
Space, matter, gravity
And energy theories!

28

***He the great genius's**
Equation giving relation
Between matter and energy,
Atom-splitting basis!

32

The photo-electric effect
Theory says, if light hits
An object, there is an
Emission of electrons!

36

His, this theory made it
Practical, the creation
Of electricity, from those
Sunlight-rays-enormous!

40

In space exploration, application
Of light, the control of
Atomic energy and so on, his work
Led to important advances!

44

* **Wrote he in letter to the philosopher,**
"The word God is for me
Nothing but the expression of and
Product of human weaknesses"!

48

"There, even light
Can't ever escape!
So great there the
Matter compressions"!

52

“It creates gravity field such.”
Theorized he
“Such points
Exist in space!” 56

***(Point such in space is found out now
And an image captured,
In constellation far away from Earth,
Fifty three million light years!** 60

One light year distance is distance
Travelled in one year with
Speed of light, and equals,
Nine point five, trillion kilo meters! 64

If infinite this cosmos,
Billions and billions of
Man’s fictitious gods
Can’t do the governance! 68

They will ever argue,
It’s god who created
On earth this
The plants and animals! 72

To explain that too, how
God came into existence!
It’s the duty of all the
God-mongers, always! 76

Engulfed in forest fire,
Blaze burnt, own daughter,
Ma and Pa burst into sobs!
Afraid fire, anxious! 80

Children and grand children
Feared ocean,
For drowned dead, the father,
Entangled in ocean waves!

84

Leg broken, got laid up,
Time galloped, rushed in death,
As fell drowsed
In sun atrocious!

88

What an end! In ghastly wind,
Under that falling broken tree,
Broke the head scattered
That led to the friend's demise!

92

Too great, leaped
Man's shuddering! For,
Nature's disturbance
Own kindred's demise cause!

96

**Fear, then-itself paved
Way for worship!
Turned God, Fire and Ocean
Sun and Air! Surprise!**

100

**Man didn't forget even the Earth
That gave food and drink to sustain our life!
As a mark of love,
Presented the status of Goddess!**

104

Superstitiously believed in god
Some persons!
Flattering god
Many turned saints!

108

In due course honored them too,
Imposing on them
The status of god,
Man didn't even let go the saints!

112

Finding that, god best suited
To squeeze income,
Transformed into god self-styled
Intellectual giants always!

116

Very swiftly
With gallop start,
The Man booby, rushed
To pray, even Man-gods!

120

After that, several people wrote,
Different, different, different-god-stories!!
Created lavishly they,
Lots and lots of novel gods!

124

It's four point five four
Billions of years
Ago, the origin
Of Earth this!

128

It's four point four one
Billions of years
Ago, the birth
Of the oceans!

132

It's four point two eight
Billions of years ago,
On earth, the life's
Emergence!

136

- On Earth, eighty point seven million
Beings! Just a calculation!
Then, now and ever, smoothly
Their evolution happens! 140
- In this world,
It's in Africa,
Man evolved ago
Two million years! 144
- From different places,
The researcher got
That fossil, that even today
Recites old stories! 148
- Finding out fossils
Hiding under the earth,
Was enabled
By excavations! 152
- Radioactive carbon
Dating revealed
The oldness
Of the fossils! 156
- Till date, it was able
To find out, the remains
Of about, twenty
Diverse Man's species! 160
- Even though, here Man came
Into existence, two million years ago,
To have the birth of Hindu God
It took only the last four thousand years! 164

Only two thousand twenty years ago
Could the Christian's God take birth!
Thousand four hundred and twenty
Years, for the birth of God Muslim's!

168

Retain superstitious believers,
Permanently superstitious
Fellows, that's the aim of
The religions' exploiters!

172

Those who expose open,
Religion-concealed-cheating,
Will be stamped! Ho! As grand
Perpetrators of human beings!

176

To please the gods, religions used to
Conduct, even human sacrifices!
Today, sheep, hen, ash-gourd fruit murder,
Nothing but substitute for human sacrifices!

180

Folks will succeed, science will rule,
Man will continue forever,
As blossoming lore spreads up tomorrow
And the next day, there die the religions!

184

To avoid death, they will fight tight,
The religion mongers and lunatics religious!
Even cheat if necessary, if fails pacifying,
Gifts, tricks, force and such approaches!

188

**Though religions die, buildings erected by
Religions shall never be smashed by anyone!
They shall be preserved as they are, as conducive
For the delight of the evolving generations!**

192

***Minoan, Mithra, Manichae,
Aten, Ashur, Veda, Canaanite,
Pagan, Olmec, Tengri; number of
Religions dead, numerous!** 196

Died fusty religions,
But fresh religions, born!
Science had not then grown so much
That's one of main reasons! 200

Oh! Honorable non hesitant
Minded Man to die for religion,
Do you know anything about the
Whereabouts of gods, of dead religions!? 204

Have those gods, poor, orphans,
Been seen by at least the Gods
Of new religions! If not,
By anyone, anywhere that exists! 208

What happened to gods of dead religions?!

Booby Man does not know anything!
Till date none ever thought about it!
Did not even the god mongers! 212

It is known, for the sake of their own existence,
Many gods old, converted to other religions!
Like politicians change their parties!
This, not mere imagination fictitious! 216

Do at least Gods novel know
Fate of gods obsolete!? Conversion
Of one god of one religion dead,
To religion living, known! It history records! 220

**For prayer! What a pity! Separate and
Separate rules for,* ‘xomes’ and* ‘yomes’!
With-in super superstitions
Sub super superstitions!**

224

**Help those in need of help,
Nurse the sick, blessed will we be
With peace of mind, ever and anon!
Brings happiness limitless!**

228

**Leave this for thinking! End ours, will be
By scuffle in the name of that religion,
If it doesn’t come to an end for ever,
Those believes superstitious!**

232

**Think, think, think; again and again think
This and that then thought, and let rethinking
Thread, spread and thrive and make dance
The mind that in treachery turned gangrenous!**

'BLACK HOLE'

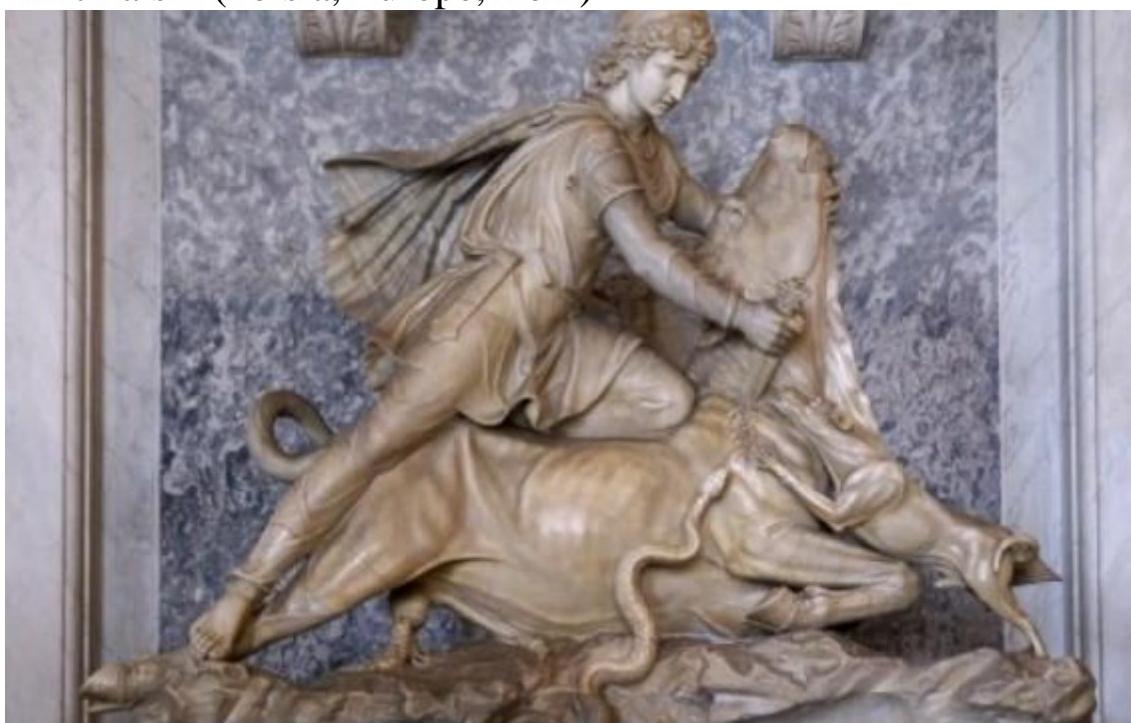

Scientists on Wednesday revealed the first image ever made of a black hole after assembling data gathered by a network of radio telescopes around the world. The image was released by astronomers of the Event Horizon Telescope
